In this capstone project, we are proposing the Digital Tourism and Local Industry Information System. Our goal in this project is to create a sustainable digital promoting the tourism spot that connects all Cebu people or other foreign with preserving the authenticity and cultural significance. With an accessible, low-barrier platform to establish online presence and reach customers beyond geographical limitations.

Create a specialized tourism environment that properly promotes the tourism spot of Cebu, highlighting their unique qualities and the stories behind them. Foster direct connections between creators to preserve their personal nature. Build a supportive community ecosystem that strengthens local creative economies and keeps craft traditions thriving. Offer consumers a trusted platform.
